

BOB DYLAN ANNOUNCES RETURN TO AUSTRALIA & NEW ZEALAND

Performing in theatres for the first time in decades

"A stunning return to form." [The Independent, Nov 2013](#)

"...a persuasive example of how good Dylan's current creative roll is." [Uncut, Nov 2013](#)

"...be wowed by a tight band, and mesmerised by a man who spoke so much of the 60s, yet is still, astonishingly, speaking anew." [The Observer, Nov 2013](#)

The long celebrated legacy of Bob Dylan, will be once again lauded this winter with his welcomed return to Australia. Upon the celebration of this legend's 73rd birthday, Chugg Entertainment can now confirm that Bob Dylan and his band will be coming back to Australia and New Zealand for a month-long tour. For the first time in over two decades, Bob Dylan draws the fans closer with performances in some of the most iconic theatre venues in the country. Fans can anticipate a musical event of depth, grace and significance, delivered by one of the greats.

How does one begin to describe the seismic force of an artist of this calibre? To note that this is a man with more than 50 album releases and a career spanning six decades, barely scratches the surface of the monumental impact his presence has made on popular culture. Perhaps his most impactful achievement though, is his timeless ability to remain relevant; deftly crossing multiple generations.

"Last year he flashed his genius once again on new album "Tempest," and now the tour...finds him in better fighting shape than we've seen him in years." [Pittsburg Post-Gazette, Apr 2013](#)

An opportunity to see Bob Dylan live in concert is an opportunity to share an encounter with one of the few pan-generational icons.
